Odisha's temple design a highly

The temples are situated at a height of about 2239 feet from sea level.

Evolution of Temple Architecture in Orissa

Other interests areas in which Rashmiranjan dabbles are Photography, eLearning, social media, project management, music, watching movies, adventure sports.

63 Temples in Odisha ideas

And embedded in each angle is a small supplementary shrine, making it a Panchayatana or five shrined temple. For the most part of the year, this temple is empty and can be visited anytime. More to allure you, there are multi colored butterflies and chirping birds all around.

List of temples in Bhubaneswar

. Each hall has a group of four massive piers inside to support the solid mass of the roof. Mukhasala or the jagamohana became an inseparable element with a perfect and natural joining of the vimana with jagamohana without the crude overlapping of the sanctum decoration as seen in the formative phase.
