End

Low rates of cancer were seen as one reason for low uptake, but the figures were likely to have been inaccurate because of poor ethnic monitoring. I have five beautiful daughters: Brittany, Mercedes, Keely, Madison and Layla, and an adorable sweet grandson Holden Finley.

Wider Horizons: Care of the Dying in a Multicultural Society

Although that study did not focus only on immigrants it is likely that similar issues could arise in the US for immigrants and our study did not detect this.

Standard Search

All remaining titles and abstracts were then assessed for relevance in regular team meetings minimum three participants.

End

Improving quality of care for serious illness: findings and recommendations of the Institute of Medicine report on dying in America. Although a few other studies did not find any age differences in memory, the consensus of the literature seems to be that a negativity reduction effect, if not also a positivity enhancement effect, exists in old age. Findings revealed that age differences in the Big Five did not differ across cultures.

Aging in Culture

I had to lie about my own language, not speaking it, not understanding it.

Walking with the Wisdom of our Mothers and Grandmothers

And I was very, very fortunate that the last of our old people were still around, and those were my teachers.
