The second approach provides longitudinal data based on population-survey studies including information about causes of death. Background characteristics of university students.

## Alcopops, alcohol consumption and alcohol

This would be a very interesting and new aspect to know, especially since data on substance consumption in different migration groups in

adulthood are rare. In my personal opinion, the epidemic of college binge drinking has its roots in the attitudes toward alcohol in the U.

### **Alcohol consumption and alcohol-related problems among Vietnamese medical students, Drug and Alcohol Review**

The original English GSHS was translated, modified, and validated into Myanmar language by the Myanmar Ministry of Health and Sports. During the last year of the project we will mobilise a range of networks of health professionals, healthy cities and WHO to try to ensure widespread scale-up of our strategy and programme throughout primary health care services in Latin America. The group advocates a general advertising ban.

### **Europe has lower drinking ages than the US — and worse teen drinking problems**

Norman P, Bennet P, Lewis H: Understanding binge drinking among young people: an application of the Theory of Planned Behaviour. Germans came comparatively early to both trades, starting beer production around 800 B. However, it has to be taken into account that the adolescents who refused to participate probably engage at least to the same percentage as their participating colleagues in alcohol consumption, maybe even more, since they were unwilling to disclose this behavior.
