### New

In , user accounts let you share access to some things, but not others, when handing control of your computer to someone else. Next, you'll want to -- the trial versions of software you don't want or need that come preinstalled in most PCs, also known as crapware or junkware.

### 3 Simple Ways to Move Outlook Profile to New Computer

Firefox is another popular option, and both are free.

### New user orientation

If it's just files that have to be transferred you don't need to do much.

### Top 10 new computer user tips

In addition to a reliable internet connection, you'll need your Wi-Fi network information, your ID username and password, and the Mac's charger or power cord. It's a lot like first learning to drive. See for details on installing antivirus software.

### HP PCs

Virtually all mice and keyboards plug in via USB.

### New user orientation

Whether you're replacing a or getting rid of a , it's only natural to want to tear open the box, hit the power button and cruise through the setup prompts. Question: What would it be a prof and right way to do that? Before clicking any Ok or an install button, make sure you understand what you are doing.
