Mapped: The Anatomy of Land Use in the United States

The findings stand in contrast to other genetic studies that had suggested the Paleo-Eskimos.

Massive landslide in northern B.C. as earthquake in Juneau, Alaska

By the way, you're cherry-picking again; and moreover, you're doing it wrong. Oh yeah, no free speech either.

PDF 85

Anyone can create a cruisetour by adding a 3-7 day land package after a cruise. Beringia had formed by about 34,000 years ago, and the first mammoth-hunting humans crossed it more than 15,000 years ago. .

Ancient DNA Reveals Complex Story of Human Migration Between Siberia and North America

Your wife being a RN should put you on the fast track to immigrate here.
