As Baugh's lucid narrative makes clear, Hegel's influence on French philosophy has been profound, and can be traced through all the major intellectual movements and thinkers in France throughout the 20th Century from Jean Wahl, Sartre, and Bataille to Foucault, Deleuze, and Derrida. The type of fine-grained and eclectic attention provided in this book to the internal and external dynamics of families is, we hope, an example of the postmodern process through which progress is constructed.
