Cur Deus Homo: Anselm, Saint: 9781411646438: play.fridaynightfunk.rf.gd: Books

It is necessary for God to become man in just this way, contingent on God's will to create. A thought provoking book on the deepest questions which have plagued mankind for time and eternity. The Question On Which The Whole Work Rests - Chapter Ii.

Works of St. Anselm: Cur Deus Homo: Preface

For it is possible, I think, that the angels should have been created perfect in number, and that afterwards man was created to complete their number when it had been lessened; and it is also possible that they were not perfect in number, because God deferred completing the number, as he does even now, determining in his own time to create man.

Faith and Theology: A little guide to 'Cur Deus homo?'

As the right order requires us to believe the deep things of Christian faith before we undertake to discuss them by reason; so to my mind it appears a neglect if, after we are established in the faith, we do not seek to understand what we believe. For, either by Christ or by some one else can man be saved, or else not at all.

Rethinking Anselm's Atonement Theory

I believe that God demands this of every rational being, and every being owes this in obedience to God. Anselm: They are punished for the great debt of their sins.
