### agriculture and fisheries

Migration Migratory and refugee movements across the world present challenges and opportunities for Canada and the EU. Any grant from FIFG must be accompanied by a minimum contribution from the national government.

### Designed for failure: A critique of the Common Fisheries Policy of the European Union

EU quotas can mean that fish are thrown overboard after being caught. To gather opinions that could inform and influence future policy decision-making, on a global scale, where the European Union EU wants to be a leader. The Canada-EU relationship is based on shared values, a long history of close cooperation, and strong people-to-people ties.

Canada and the EU continue to engage on energy topics through the High Level Energy Dialogue HLED under the.

### Driving Good Governance in Fisheries: How the European Union Is Tackling Illegal, Unreported and Unregulated Fishing

Though providing scientific advice earlier will make the forecasts less precise in some cases, the Commission thinks this would be acceptable. The discard of regulated species is being phased out and, in combination, flanking measures are to be introduced to implement the ban.

### Common Fisheries Policy

This relationship dates back to 1975, when Canada and the European Commission signed an exchange of letters on environmental cooperation. Both dialogues were formalized in 2017, under the Canada-EU Strategic Partnership Agreement.
