It occurred perhaps to other persons, or in other places, or at different times than those mentioned in the tradition. For a hundred years the history of the Philippines is a dull monotony, quite unrelieved by any heroic activity or the presence of noble character.

## The Life of William Carey, Shoemaker & Missionary

Wilhelm Boeck in Norway, employing extensive clinical data and postmortem findings, marked what Rudolf Virchow described as "the beginning of the biologic knowledge of leprosy. We ought to be furnished yearly with at least half a hundredweight of Jesuit's bark. As usual, Thomas had again blundered, so that even his gentle colleague himself half-condemned, half-apologised for him by the shrewd reflection that he was only fit to live at sea, where his daily business would be before him, and daily provision would be made for him.

## **A Brief History Of Leprosy, The Oldest Human Disease**

Having successfully accomplished his mission, Father Coudrin left Rome for France on July 21. He tried the oil as an oral and topical agent in two cases of leprosy and reported significant improvements in an 1854 paper.

The first two English missionaries to India seemed to those who sent them forth to have disappeared for ever.

## **Christianity in India**

The convoy, which had seen the Danish vessel fairly beyond the French coast, had been unable to bring back letters on account of the weather. It hardly needs to be added that the pious worshipers greatly suffered from the heat, perspiration not unfrequently literally drenching even their outer garments. It is inconsistent for ministers to please themselves with thoughts of a numerous auditory, cordial friends, a civilised country, legal protection, affluence, splendour, or even a competency.
