Why Some Religious People Fear (and Fight) Science

I spent some time mentally visualizing
various aspects of the compiler, the

language and the processing which would take place. Role or Functions of Religion: Religion is interwoven with all aspects of human life: with kinship systems, economic and political institutions.

Toward a New Understanding of Nature, Reality, and the Sacred: A Syllabus, Zygon Journal of Religion and Science

The themes addressed in the volumes provide fodder for thought in areas of transcendence, globalization, deterritorialization, and contextualization, as well as offering windows of insight into newly emerging areas of gender challenges, personal preference identity in private, religious, and public space. Thus, a continued dialogue between both science and religion and between religions needs to occur.

Religion and the Environment

Sin, sickness and death also do not exist; people only think they do.

Introductory essay

For him therefore religion is, to be sure, superstition, but to stop at this point is to limit religion to merely abstract belief. As a matter of fact the forms in which religion expresses itself vary so much that it is difficult to agree upon a definition. Secularisation involves reduction of religious influence on men, elimination of some aspects of it which are not beneficial to human welfare, elimination of superstitions and blind beliefs.

Three Essays on Religion

Developmental psychologists have raised questions about whether and how preverbal infants can think. Third, psychedelic spirits are tricksters; they often speak in riddles, communicate in visual rebus and pantomime, and typically never give a straight answer to inquiries.

Introductory essay

Thus secularization, as Brayan Wilson has defined, refers to the process in which religious thinking, practice and institutions lose social significance.

Toward a New Understanding of Nature, Reality, and the Sacred: A Syllabus, Zygon Journal of Religion and Science

He wrote to the comprehension of the profoundly poor, those who would be, and would have lived among, the utterly unlettered.

Defining Noetic Sciences

It can be localized or distributed and it can be embodied within a conscious mind or not.
