Edward Said, Orientalism New York: Pantheon Books, 1978 , 75. Current research on the Reformation tends to focus on its reception, rejection or adaptation by people on the ground.

People puzzled by peculiar texts, and no one can say why

As the condemnation of Galileo demonstrates, in 1700 most religious and intellectual leaders viewed the new science with suspicion or outright hostility because of the unwanted challenge it posed to established ways of thought. Tutors develop the theme of cultural adaptation and divergence in varying ways.

Dynastic ambitions and historical circumstances combined to favor and then block the creation of a powerful empire in the early sixteenth century. When textbook authors set out on a project, they are inclined to believe that 90 percent of the effort will be theirs and 10 percent that of various editors and production specialists employed by their publisher. In short, rather than consolidating its existing missions and promoting new ones, the Church squandered Worldly Catholics and Secular Priests 175 what it already had—while Protestant contamination spread across the globe.
