Kraft : Pulsating stars and cosmic distances - Halton C. Occupations are ordered on the vertical dimension, and the independent variable is gender, with just the two categories of male and female. Toronto: Urban Alliance on Race Relations and the Social Planning Council of Metropolitan Toronto.

David J Freeman

This is when the occupations are ordered from most female to least female, and D is then equal to the gini coefficient Blackburn et al 1995.

Gender Differences in Earnings: A Re

Category: Philosophy; New Jersey; 1960s; Christianity. *italics in the original*, Siltanen et al, 1995: 4-5 Clearly both the concepts are concerned with the distribution of men and women in occupations.

David J Freeman

The findings from the study revealed that the scale was valid and reliable and that internal factors and external factors that limiting to their labour force participation and negatives of working affect directly labour force participation of women.
