ahimsa," to which there is the following footnote:

Although we never hear the narrative, we know it must add an "ahimsa gloss" from the words of the Subhaschandra Bura, who intended it to be told as a pacifying tale to the enraged Bura. I believe Pramati's narration would thus occur outside Ugrasrava's narration, making full use of and possibly even elaborating further on the ahimsa message Samaka has woven into the epic in the meantime.<sup>41</sup>

That said, not all the changes we observe in the world are faithfully reflected in mental transformations. During the nineteen sixties and seventies, a neocatastrophist viewpoint has increasingly emerged in various branches of geology. Geological Society of America, Northeastern Section, 29th annual meeting.

## Exploration geophysics

This conference aims to stimulate the exchange of ideas among geoscientific modelers, applied mathematicians, statisticians, and other scientists, fostering new research in the mathematical foundations with an impact on geoscience applications. One further natural outflow occurs when water flows into other aquifers.

## **Schedule**

Two types of approaches are distinguished in hydrogeochemical modelling and in other types of hydrological modelling as well Fig. Automatically stored data are retrieved on site with a portable PC.
