跨越族群边界：社会学视野下的大瑶山族群关系

In the events of spring 1989, Chinas grim cycle of protest and repression continued. The cline of instantiation is a dimension that organizes systems of all kinds — physical systems like that of meteorology, biological systems, social systems and semiotic systems.

G.E.M

University of Sydney: PhD thesis. It is also at the same time the most important lexicogrammatical interface to the systems of discourse semantics.

There is little evidence that he had usurped the throne, however, and some evidence to show that Kangxi had trusted Yongzheng more than he had most of his other sons.

KPML: The KOMET-Penman Multilingual Development Environment: Support for multilingual linguistic resource development and sentence generation. Some of the most brilliant of these painters, like Shitao or Bada Shanren, were related to members of the fallen Ming ruling house and retired to isolated monasteries in the conquest period. The other segment of the Chinese bureaucracy consisted of those assigned to posts in the fifteen major provinces into which China was divided during the Ming dynasty.

Language Typology: A Functional Perspective (Amsterdam Studies in the Theory and History of Linguistic Science, Series IV: Current Issues in Linguistic Theory)

Though for practical reasons they had to let Chinese officials use Chinese for administrative documents, all important documents were translated into Manchu.
