There are many theories about their skulls, ranging from artificial methods of prolongation, to the possibility of their extraterrestrial origin; But none of these theories are proven. Taplin, Oliver, Greek Tragedy in Action, Oxford University Press, 1978.

The fifth-century skene was frequently a single-storey building with one central door, which could take on the identity of a palace or a temple. The Precinct The Theatre of Dionysos was only one part of the precinct, or temenos, of Dionysos. The introduction of a second actor deuteragonistes is attributed to Aeschylus and the third tritagonistes to Sophocles.
