Volta: Man's Greatest Lake

In 2017, Jeremy Snell traveled on assignment to Ghana with the nonprofit organization International Justice Mission to work with a creative team telling the stories of people affected by child trafficking and child labor in and around Lake Volta. The lake covers an area of 16,400 km² but is shrinking in size.

List of lakes by area

Lake Volta was formed after the q.

The Largest Lakes In Ghana

The lake is located to the South-east of Kumasi within an old crater believed to have been formed by a striking asteroid. Increasingly, the lake brings tourists to the region, aiding a burgeoning industry vital to the economic growth of Ghana. International Association of Theoretical and Applied Limnology SIL.

The Largest Lakes In Ghana

Rising 440ft above ground level, the dam locked in a new feat of engineering — Volta, which remains one of the largest man-made reservoirs in the world. This may be because Snell, who works as both a photographer and a cinematographer, is more interested in storytelling by constructing scenes than straight documentation.

Lake Volta, Ghana

Festivals are common in the villages around Lake Volta. United Nations Environment Programme, World Conservation Monitoring Centre, UNESCO. Balkhash is the largest city near the lake.

Akosombo Hydroelectric Project, Ghana
