The Joy of Mathematics: Discovering mathematics all around you by Theoni Pappas

Of course, refer back to your various real-world problems as the students learn more and eventually, give them a chance to propose a solution. You can be really creative when teaching topics like geometry, measurement, graphing, addition. ...

30 Ways to Make Math FUN for Elementary Kids

Just a lot of fun little facts and ideas. Go outside and do the same math lesson. Because it has become so predominant a requirement of teaching, it is important to consider the processes themselves in more detail.
