Adam Smith vs. Karl Marx

Yet, for all of his calls for international solidarity, Marx also stressed that it could only be built on the basis of national, working-class organization rooted in the material conditions of exploitation in given national contexts, and aimed at the state apparatuses of various nations. Unfortunately,

Marx was also wrong in believing in a revolution to achieve socialism and eventually communism. For example, iron miners once worked with pickaxes and shovels, which they owned, but the invention of the steam shovel changed the way they extracted iron ore.
