actual doings and beings. The theoretical debate on the selection of dimensions has been complicated by the fact that there are different views on the status of the selection. Whether a particular person then decides to translate these general capabilities in the more specific capabilities A, B or C e.

The Capability Approach and the Praxis of Development

A bike enables the functioning of mobility, to be able to move oneself freely and more rapidly than walking.

The Capability Approach (Stanford Encyclopedia of Philosophy)

How can we criticize and improve the design of technology from the perspective of the capability approach? This demarcation could be done in various ways, and most capability scholars think that different answers are appropriate in different normative exercises. Another question about freedom in the capability approach concerns whether, or the extent to which, it corresponds to other concepts of freedom within the philosophical literature, such as positive and negative freedom. Moreover, it would be a mistake to think that there can be only one capability theory of justice; on the contrary, the open nature of the capability approach allows for the development of a family of capability theories of justice, including accounts proposed by Anderson 1999 and Claassen 2018.

This shift in focus is justified because resources and goods alone do not ensure that people are able to convert them into

A methodology for narrating these processes is introduced.

The Capability Approach (Stanford Encyclopedia of Philosophy)

Capabilities are the real freedoms that people have to achieve their potential doings and beings.

The Praxis approach

Capability scholars believe that these inter-individual differences are far-reaching and significant, and that theories that focus on means tend to downplay their normative relevance.

The Capability Approach (Stanford Encyclopedia of Philosophy)

It asks whether people have access to a high-quality education system, to real political participation, and to community activities that support them, that enable them to cope with struggles in daily life, and that foster caring and warm friendships. If a person is disabled, is in bad physical condition, or has never learned to cycle, then the bike will be of limited help in enabling the functioning of mobility.
