## New Roles for the 21st

Two thirds of blacks have experienced discrimination, most commonly regarding employment or a promotion. The more recent Pew survey, then, suggests that the Census numbers may reflect an under-count. After combining prayer and research with years of pastoral experience, let me focus on the following 12 issues that loom as some of our greatest challenges in the next 15 years: 1.

## Challenges for the 21st Century Church

The hatred for the Gospel message will permeate the media, government, medical and research organizations, the entertainment industry, and educational institutions. Biracial children showed flexibility in racial identification during learning and social tasks. Cambridge, MA: Harvard University Press.

## The Disturbing Resilience of Scientific Racism

The value of flexibility in the face of great social and cultural change appears to be the dominant theme from research on immigrant youth, although that flexibility can be constrained by socioeconomic, ethnic, and racial stratification systems in host societies.

## The Burdens of Race and History on Black People's Health 400 Years After Jamestown

That frustrated group led a secessionist movement; what might embittered and resource-rich African Americans do? To see a complete list of Milbank reports, click. Their most important recommendation is that changes in organization and management should implement a significant change in the purposes of health policy.

## 10.6 Race and Ethnicity in the 21st Century

It took 650 years from the advent of the turbine for a technological advancement to be made.
