As editor, I would like to express my appreciation to the contributing authors, to the reviewers, to the editorial staff of the publisher, and to the many secretaries and typists who have worked on the manuscript; without the partnership of all of these people, this handbook would not have been possible. They involve results and techniques which experience has shown to be of utility in a very broad variety of applications. In addition to the courses listed specifically below, more advanced courses may be approved by petition in the context of a particular program of study.

Handbook of applied mathematics for engineers and scientists : Kurtz, Max, 1920

In the long run, their contributions must be evaluated based on both methodological and phenomenological impact. Students seeking placement based on college-level work done elsewhere must submit a petition to the Director or Associate Director of Undergraduate Studies, supplemented by suitable supporting materials. Special arrangements are made for students whose area of application is mathematical economics, in cooperation with the Economics Department.
