Agenda 21

SCIENCE Decision-Making Strategies, policies and plans Recognizing the importance of science and its potential impact on sustainable development, the government of Tanzania has put in place a Higher Education Policy to provide the direction and guidance to stakeholders and service providers. Cent Afr J Med 43: 316—321.

Fecal Contamination of Drinking

Kilwa remained the major power in East Africa until the arrival of the Portuguese at the end of the 15th century.

Tanzania

Pol J Environ Stud 16: 377—383.

African Journal of Environmental Science and Technology

TUT, IWEE, A 34, 154 pp.

Rural Water Supply & Sanitation Initiative

Maiga H, Maiga B, Sutton S 2006 Self-supply in Mali. The underlying premises of the sectoral policy reviews are the need to balance accelerated economic growth with more efficient and sustainable use of the environment and natural resources; and the need to integrate environmental management into all sectors. Additionally, human activities may exacerbate groundwater contamination by escalating the rate of slow occurring natural processes.

History

Direct involvement and control of the agricultural sector by the government has been reduced. Knight SM, Toodayan W, Caique WC, Kyi W, Barnes A, et al.

Fecal Contamination of Drinking

The , , , and peoples each have a population exceeding 1 million. Augoustinos MT, Venter SN, Kfir R 1995 Assessment of water quality problems due to microbial growth in drinking water distribution systems.

Sekela Twisa

Tanzanian citizens are able to volunteer for military service from 15 years of age, and 18 years of age for compulsory military service upon graduation from secondary school.
