Allergy Food Fact Sheet

After a period of time, the droplet is wiped off and the skin is read. For this reason, it is crucial to check the labels on packaging. Check to see which sorts of foods to avoid.

How Safe are Color Additives?

The FDA has developed the food allergen detection assay that can rapidly detect up to 14 allergens, including all major allergens except fish, with one sample.

School factsheets

The best known colourant is tartrazine E 102. For some people, this is a mere inconvenience, but others find it a greater hardship.

Allergy Food Fact Sheet

Several conditions relate to gluten, including celiac disease, non-celiac gluten sensitivity and wheat allergy.

School factsheets

Many people mistakenly believe they have food allergies. After this time, the food should be reintroduced, to see if symptoms return.
