Islam and Politics in a Comparative Perspective

In his early work, Laclau applies the concept of interpellation to the study of political ideology. All these initiatives exactly illustrate the intention of the fascist elite to bring the organic community of the people into existence.

Understanding unequal turnout: Education and voting in comparative perspective

Brian Parr, assistant professor of agriscience education in the Department of Curriculum and Teaching, also attended the convention and used the occasion as an opportunity for student recruitment. It is difficult to deny though that this was a constant fear among communist organisations.

In a second study Haslam, 1999 , another sample of relationships was gathered and rated on a different set of items assessing the RMs.

Teaching Readers of English: Students, Texts, and Contexts

Here is where similarities cease to emerge though: the communist mapping of the Balkans embodied a series of distinct features. It also encourages

excellence in scholarship and acquaints students with the many career possibilities that exist within agriculture-related fields. The emerging global multipolar order has niches and opportunities for middle power influence that were much less prominent in the Cold War era.

With practice, processing skills gradually become automatic, thereby relieving demands on working memory Anderson, 1995; Nuttall, 1982; Schunk, 2000. The aim of the ensuing analysis is to show how liberal internationalism contested the nationalist articulation of the Balkans as a mosaic of nation-states, as the aggregate of several national spaces. Still, this was an organisation involved in decisive resolutions on communist strategies across the region.

First, we need to show how the concept of ideology should be widened as not to automatically refer to a set of ideas and beliefs. This is to say that, although teachers should carefully analyze texts, a range of interacting variables can and should help 98 Teaching Readers of English teachers determine whether and how a particular text or book is appropriate for their students.
