Curriculum, Social Studies

Some believe that young children cannot comprehend such issues as the global environment, human rights, and economic interdependence. The National Council for the Social Studies NCSS annually publishes an annotated bibliography, Notable Social Studies Trade Books for Young People, which helps teachers build literacy connections to social studies topics. For example, three-year-olds can ask their parents about their physical characteristics as infants; and they can collect images of themselves when they were younger and compare this data with their current lives. The readings explore 18 themes and will appeal to a broad spectrum of readers — both traditional and non-traditional.

Education Department

We found Black Children: Social, Educational and Parental Environments featured below to be especially thorough in explaining this concept. Finally — an innovative guide to teachers and students that fulfills all requirements for the nucleus of a science program.
