### Headache When Bending Over: Migraine, Sinus Issues, Other Causes

In this case, you may need immediate medical attention because there may be internal swelling or bleeding. Migraine starting around the eyes and then the pain can spread to the back of the head. Basilar

I remember the headaches when I was recovering, when I was 12 and 13 , and they were quite bad, they didn't really feel like any other headache like a migraine, tension or dehydration headache, I get migraines and clusters too so I know the headaches I get aren't those either. When people experience a heaviness in the head on a regular basis, along with other symptoms like dizziness, fatigue, or vomiting, it is not only uncomfortable, but it is concerning.
