Our Estimates / MN State Demographic Center

In 2000, children represented some 26% of the population in both the suburban counties and urban counties. Adjustment of the initial classification of these ten large metro counties resulted in a final classification with 63 counties in the large central metro category and 354 counties in the large fringe metro category.

Population estimates

Area and Population Density If were a full state in the remember, it is actually a Commonwealth , this would make it the 29th largest state in the US, sandwiched between and. The largest city in each MSA is designated the principal city and will be the first name in the title.

• U.S. largest metro areas by population 2019

COPD includes emphysema and chronic bronchitis. They use different methods and data for their estimates. The NCHS scheme has more metropolitan levels four than nonmetropolitan levels two because the large U.

Compressed Mortality: N C H S

Skagway Municipality and Hoonah-Angoon Census Area are not available in our data until 2011.

Current Population Survey (CPS)

A designates 68 counties as urban core counties. For the 1974, 1983 and 1993, Kalawao was coded the same as Maui county.

Special Report: 2013 Metropolitan Area Population Estimates

The classification recommended by the discriminant model agrees closely with the classification obtained by applying the classification rules Table 3.
