Convair F

Notwithstanding, the 498th on 21st July scrambled five F-106s on a simulated combat mission with remarkable success. F-106s flew nonstop from McChord AFB to Tyndall AFB for the first extended range interceptor flight marked by inflight refueling and missile firing.

CONVAIR F

However, the first operational unit was the 498th Fighter Interceptor Squadron based at Geiger AFB in Washington. Category III testing ended in early 1961, after being somewhat hampered by logistical shortages. After minor repairs, the aircraft was returned to service.

Convair F

Notes on kit C : - The Microscale red-white-blue fuselage band stripes are a too wide, which I discovered too late. Even then, numerous problems kept the Delta Dart from being declared fully operational until October 31, 1959.

F

Within time, the aircraft was inevitably forced out of the long-term USAF plans. The F- 106-A Click on Picture to enlarge STEVEN PATRICK In mid 1957, when only 120 F-106As had been funded for procurement and Headquarters USAF thought of liquidating the entire program, ADC plans called for an F-106 buildup of 40 squadrons more than 1,000 aircraft.

F 106 Delta Dart Vietnam

The installation of new external wing mounted supersonic fuel tanks, also authorized, would increase the F-106's radius of operation.
