2.4 Eastern Europe

Canals and other improvements in the transportation were made in these regions, which made them attractive to other industries that were not necessarily dependent on coal, and thus prompted development in adjacent regions. In 1990, Hungary was the first Eastern bloc nation to join the Council of Europe. The North Atlantic Treaty Organization NATO and the EU welcomed them as members in 2004.

Europe

With open borders comes more opportunity to cause trouble.

EconPapers: Papers in Evolutionary Economic Geography (PEEG)

Moldavia changed its name to Moldova.

Economics Essays: Benefits of the European Union

Tito was a centripetal force for the region of Yugoslavia. Studies indicate that regional economic integration significantly contributes to the relatively high growth rates in the less-developed countries. Both regions have sublevel governments within the formal country of Bosnia and Herzegovina.

Case study

In December 2009, Bahrain, Saudi Arabia, Kuwait, and Qatar created a monetary council with the intent of eventually creating a shared currency. In 2004 Estonia, Latvia, Lithuania, Poland, Czech Republic, Slovakia, Hungary, Slovenia, Malta and Cyprus joined; in 2007 Romania and Bulgaria joined and in 2013 Croatia joined. The main opposition to the Serb power structure in Kosovo in the early 1990s was the Kosovo Liberation Army KLA.

The History and Purpose of the European Union

By removing restrictions on labor movement, economic integration can help expand job opportunities.

Swedish regional economic growth in a European perspective

Since its creation, the GCC has contributed not only to the expansion of trade but also to the development of its countries and the welfare of its citizens, as well as promoting peace and stability in the region.
