Electromagnetic Imaging

These structures can serve as electromagnetic flux concentrators in the radiofrequency range.

Electromagnetic Nondestructive Evaluation (XII), Hyang

They can also supervise and train Level 1 technicians.

Electromagnetic Nondestructive Evaluation: Present and Future

Borener worked in the pipeline safety field in the mid-1990s, when leak detection systems for transmission pipelines were under consideration. On behalf of the organizers, with best regards, The Organizers Invitation Dear Colleagues, With great pleasure and honor, we organize the 25 th International Workshop on Electromagnetic Nondestructive Evaluation ENDE20 in Budapest.

Compact Electromagnetic Nondestructive Assessment (CENA) Probe » IERUS Technologies, Inc.

The implementation of a simplified yet advantageous incremental permeability and eddy current impedance analysis based on this probe type is discussed, and first results are presented. As other cases, results when scanning a probe over deformed samples are described these include the reviews of our past works.

Compact Electromagnetic Nondestructive Assessment (CENA) Probe » IERUS Technologies, Inc.

Keynote - 3 Tuesday 8:00 - 8:50 am Dr. However, modifications to prescriptive standards require significant amounts of data and analysis to be successfully developed and adopted. Now we are proudly hosting again this event twenty years later, in 2020, when ENDE is celebrating its 25 th anniversary.

Electromagnetic Imaging

We are looking forward to meeting all members of our community at the next ENDE workshop in Greece.
