Red List of marine mammals of the Wadden Sea

Though just after the PDV epizootic in 1988 the area seemed to be of greater importance, holding 20 %, the importance of this relatively small area has remained similar throughout the study period averaging ~14 %.

Red List of Mammals of the Wadden Sea — Research@WUR

Left A : Overview of the locations of harbour seals tracked from the Dutch Wadden Sea, obtained using satellite telemetry GSM-GPS devices between 2009 and 2016; Right B : Overview of the locations of grey seals tracked from the Dutch Wadden Sea, obtained using satellite telemetry GSM-GPS devices between 2009 and 2016. United States of America: Reader's Digest Association, Inc.

Wadden Sea

Therefore conservation of marine, coastal and freshwater ecosystems through the effective management of protected areas, including marine no-take zones, is essential. Fisheries and Maritime Museum, Esbjerg, Biological Papers, 1, 1999.

Wadden Sea

Numbers of pups in the Danish part of the Wadden Sea mirror the pattern for moulting adults, showing decreasing growth rates in recent years.

Causes of Extirpations in the Wadden Sea, An Estuarine Area in The Netherlands on JSTOR

In the period after the 2002 epizootic, the distribution of the seals throughout the Wadden Sea changed again.

Rise and fall of fishing and marine resource use in the Wadden Sea, southern North Sea

There is no specific data for the Wadden Sea and porpoises in the entire North Sea are considered to belong to one large population. This would

help ensure species protection for the seals to breed, moult and rest.
