HSE

Chemical supply chain information provision REACH and CLP regulations require improved quality data and risk assessments for chemicals in the supply chain and place requirements on manufacturers and importers to provide this information within registration dossiers for chemicals imported or manufactured in quantities of more than 1 tonne per annum. The industry is usually thought of as separate from the chemical industry, for in the early days of the petroleum industry in the 19th century was merely subjected to a simple treatment.

U.S. Chemical industry

Terminals are strategically located at the coastal ports of Immingham, Teesside and Tyneside UK , on the Shannon Estuary Ireland , and on the Rhine river at Mannheim Germany. SIR Tel: 886 2 2541 0022 Street address: 8 Fl.

Chemical Research and Analysis

The Haber—Bosch process was a milestone in industrial chemistry. He received the Nobel Prize for Chemistry, yet there were moves to strip him of the award because of his work on gas warfare.
