Family Law and Practice

These cases will inspire great conversation in the classroom and will hold the students' interest from start to finish. The cases are more like soap operas than the dry cases one usually associates with law.

Approved for the Experiential Learning Requirement. Students in the course will learn many of the theoretical and practical fundamentals of family law through the experience of working on simulated cases. Family Law in Practice is an experiential course in which students learn the basics of family law by working through two extended simulations.

Family Law and Practice

This book seems to portray very realistically family breakdown AND how the attorney and paralegal fit in.
