therefore could correct for astigmatism in ways that were impossible with most other varieties of pince-nez—however, they still did not account for.

### Griff

Any other shipping issue will be dependent on what is covered by the shipping insurance. Attention encore à sa qualité, qui est parfois catastrophique et je pèse mes mots! SI VOUS REFUSEZ CELA, VOUS N'ÊTES PAS AUTORISÉ À RESTER SUR LE SITE ET VOUS DEVEZ LE QUITTER. This variety was popular from the 1890s to the 1930s, after which they were seldom seen.

### Santé : Les meilleures trucs et astuces de grand

Oxfords are descended from the lorgnette, as early examples of them often had handles in addition to nose-pads.

### French Makers' Marks Illustrated

The principal advantage was that unlike the C-bridge pince-nez, whose lenses rotated slightly as they were placed on the nose, the astig's lenses did not rotate and

## **French Makers' Marks Illustrated**

Here, let me help you with that claw. Ce que j'ai découvert, un tas de choses. The bridges were subject to constant wear from repeated flexing when being set and removed from the face, so would frequently break or lose their tension.

### **Griffe D'automne**

Fabricant bijoutier une boule surmontée d'une étoile Du Puigauveau mademoiselle prénom Etat civil Clotilde C.
