History of Europe

This inquiry would first imply a drastic change of approach for the recording process itself by shifting attention from the physical and artistic qualities and features of the artifacts such as morphology of the support, dimensions of the images, technologies of their implementation, and accuracy of the representations to their formal recursive properties such as the categories of symbols that can be abstracted from their concrete realizations, their mutual relations and their compositional ordering in the form of strings or clusters.

Shumon Tobias Hussain

Bone tools from the ancient Paleolithic sites of Kiik-Koba and Kosh-Koba Kostyanye orudiya iz drevnepaleoliticheskikh stoyanok Kiik-Koba i Kosh-Koba.

Reformatorium scientarum

This may be a simple world map showing the location and number of included studies e. The Neanderthals continued to use technology and possibly technology.

Master study (Mgr.)

Like stone implements, they presuppose a symbolic capacity whose emergence with language can be traced back much earlier than has long been assumed. Such changes may have reduced the supply of usable and forced people to look at other materials. The more widespread Gravettian culture is no less advanced, at least in artistic terms: sculpture mainly venuses is the most outstanding form of creative expression of these peoples.

Estimating temperatures of heated Lower Palaeolithic flint artefacts
