Birds of MALAYSIA : Thru My Eyes: Common Hoopoe

That was about five years ago.

Wildlife of Malaysia

And among His Signs is the creation of the heavens and the earth, and the living creatures that He has scattered through them: and He has Power to gather them together when He wills. Issued by Authority of the Federated Malay States Government.

White

Singapore: Institute of Southeast Asian Studies. Other large insects include the , which can grow as long as a human forearm, the , with a wingspan of 30 centimetres 12 in , and the 4 centimetres 2 in long. May be very minimal identifying marks on the inside cover.

The Birds of the Malay Peninsula

England: John Beaufoy Publishing, p.

BIRD ID

Today the predominant bittern I encounter in wetlands in my region is the Yellow Bittern; it is easily and often seen.

The Birds of the Malay Peninsula

The Cinnamon Bittern is uncommon and requires patience to find. The is found around Sabah and in the . Today, it is considered a critically endangered species in Singapore.
