WCO and EU jointly support the application of the Harmonized System in Africa

It was compiled based on the European Classification of Types of Construction CC , which is in accordance with the UN recommendations.

Standard Classification of Transported Goods (SCTG) Codes

Quality assurance procedures are performed at every stage of collection, processing and tabulation; however the data are still subject to several types of nonsampling errors. The HS was also used to define motor vehicle parts. Permits will have terms and conditions that must be met to be valid.

Harmonized Commodity Description and Coding Systems (HS) (Classifications, Commodity Codes, Commodity Description, HS, HS code search, WCO)

In interest of speeding up economies and simplifying the classification process, the Harmonized System is widely adopted throughout the world.

Harmonized Commodity Description and Coding System

These concordances may be used to compare classifications or regroup data since the relationship between exports or imports and the SCG is 1 to 1 or many to one.

International Convention on Harmonized System

This may be due to lack of space within the relevant range of codes or to the necessity to accommodate a different classification structure. Central American Common Market - Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua.

Harmonized System (HS) Codes

It should be noted that, in the CFS, mailed parcels constitute one of the seven modes for which commodity information is collected. While various users of classifications often prepare correlation tables for their own internal purposes, official versions are generally issued by the organization which maintains one or both of the classifications involved. For the years between the first two editions, the classification was updated by annual supplements consisting of replacement pages.

WCO and EU jointly support the application of the Harmonized System in Africa

The six digits can be broken down into three parts. Second, the commodities in a given classification of a given level are mutually exclusive of those in any other classification of that level.
