Why Women Shouldn't Want To Have It All

I consider myself extremely lucky and guilt-free. Instead, they operate in a society where motherhood carries enormous economic penalties.

When Did Feminism Become So Anti

Has the drive out of the house and into the workplace been a force for bad, not good? So give up and accept it. Expectations that Z women may find thwarted when they realise that, although they may be equals with their contemporaries, it is still Baby Boomer and Gen X men at the top, making the decisions about their career.

How feminism made women unsuitable for marriage and parenting

Having the accountability and girlfriends do this with me has helped tremendously. Mongols have shit technology, less efficient, defeated the japs, now they are far-right.

Women can still have it all. Can't they?

It is extremely difficult mentally and financially, the divorce that is. There are two courses God sets before you and ONLY two courses and you must choose one or the other. That makes materialism to heavy of a standard.

Millennial women still can't have it all: Bianca O'Neill

I can only become the best man I possibly can be and hope that is good enough. For the most part feminism has brought in promiscuity and the idea that men no longer have to be responsible for getting a woman pregnant, has brought in rampant abortion number, brought liberal theology into the church, embraced the homosexual agenda, social engineering in the military, etc. Typically, Chinese students finish their undergraduate

degree at the age of 22.
