## The status of may in Middle English medical writing. Evidence from Middle English Medical Texts and the Málaga Corpus of Late Middle English Scientific Prose: Francisco Alonso

Leonor Teles and the Construction of Female Characters in Ferno Lopes.

## Medical writing in Irish, 1400

The theory of humors The ancient Egyptians developed the theory of humorism, Greek scholars and physicians reviewed it, and then Roman, medieval Islamic, and European doctors adopted it. What set them apart was a refusal to posit causes beyond those that can be observed. E, and

many more followed after the Norman Conquest in 1066, including St.

### **English literature**

He criticizes, for instance, the Pythagoreans for forcing their observations of the heavens to accord with theory, rather than seeking theories that account for what can be seen to occur DC 293a25—27. It does grasp its object as a something distinct from the knower, but fails to grasp its essential characteristics.
