### Helping Your Child Who is Overweight

Even as toddlers, children start taking cues from their surroundings and others around them as they decide what they like, what to eat, and how active to be. Unhealthy weight gain due to poor diet and lack of exercise is responsible for over 300,000 deaths each year.

### Childhood Obesity and Weight Problems

Each additional hour of television per day

increased the prevalence of obesity by 2%. Encourage them to make healthy choices when outside the home and to be active every day. The UK still has one of the highest rates of childhood obesity in Europe.

### Childhood obesity

Some medicines can also make children more likely to put on weight. Childhood obesity: Evidence-based guidelines for clinical practice — Part two.

### Overweight and Obesity (for Parents)

Clinical trials look at safe and effective new ways to prevent, detect, or treat disease.

### Childhood Obesity Facts

Filesize: 30.210 MB

A child may be subject to bullying because of their weight.

### **Children with Obesity Tend to Become Adults who are Obese**
