ABC Carbon » Express 111

Labour increasingly involved men in unprecedented travel out of the delta to plantations in the neighbouring Gulf and Central districts, as well as to work in Port Moresby. The population of the island is believed to have varied from 40,000 to 60,000 in the period ranging from initial settlement until the mid-19th century. According to the ancient manuscript, the began in 874 AD when the chieftain became the first permanent settler on the island.

Dubash, Navroz K.

All you have to do is tighten the permitting process for offshore drilling and permanently ban any expansion of it. Canberra: Australian National University, National Centre for Development Studies.
