Influencing international child labour policy: The potential and limits of children

The findings of this study point to a variety of social dialogue responses to the crisis, depending on variables such as country, sector, level of government support and strength of social dialogue traditions and industrial relations systems. The initiative begun in 2016 by gathering the views of government representatives, workers, employers, academics and other relevant figures around the world.

Influencing international child labour policy: The potential and limits of children

In the UK, the Workplace Employment Relations Survey WERS 2011 finds that there has been no change between 2004 and 2011 in the incidence of Joint Consultative Committees JCCs in UK workplaces defined as any committee of managers and employees that is primarily concerned with consultation rather than negotiation. Nevertheless, the study also found evidence of weakening social dialogue, exacerbating trends, such as a decline in union density and union power, an increase in unilateral government decision-making and decentralisation of collective

bargaining. In general, the Committee concludes that the measures taken in this respect since 1997 by the Government are consistent with the Convention.
