## The impact of globalization on international business

Such constraints included the power of an independent aristocracy, the church, the rising urban capitalist class, and the ever-present external threat. China has successfully combined state intervention with private investment to develop a robust, market-driven economy—all within a communist form of government. This organization finances projects concerning climate change, land degradation, international water, biodiversity, and the ozone layer.

## 2020 Edelman Trust Barometer

Government—Business Trade Relations: The Impact of Political and Legal Factors on International Trade How do political and legal realities impact international trade, and what do businesses need to think about as they develop their global strategy? Source: Statistics Canada, June 2008. Some governments are farther advanced than others in this regard.

## The Definition and Purpose of Political Institutions

This could inform decisions about which businesses can reopen and under what parameters, and provide business owners and citizens with safety guidelines.

## Governments and Development

This includes power over Crown lands and natural resources, many social services such as health care and education, administration of justice, and property and civil rights. . In countries with greater economic freedom, fewer opportunities for rent-seeking exist; there should be less corruption in these countries.

## International sanctions

Benefits to participating countries: International business gives benefits to all participating countries. Seven of the ten largest corporations in the

world are oil companies, based on revenues. Just 52% of respondents to our survey said they trust business to do what is right.
