Konflikttesen

When the soul is separated from the body individuals can look back on their whole life up to that point, and when the soul is united to its new body there is a preview of its coming phase of life.

Science in Theistic Contexts : Cognitive Dimensions

This new consciousness demonstrates itself in an instinctive understanding of the sacredness and, in particular, the interconnectedness of all existence. Rebirthing: In the early 1970s Leonard Orr described rebirthing as a process by which a person can identify and isolate areas in his or her consciousness that are unresolved and at the source of present problems.

James Gregory Lectures on Science, Religion and Human Flourishing

Sloan Natural selection, teleology, and the logos: from Darwin to the Oxford neo-Darwinists, 1859-1909 -- R. In this majestic unfolding of life, all living organisms continually responded to environmental influences with structural changes, and they did so autonomously, according to their own natures *ibid*.

Osiris, Volume 16: Science in Theistic Contexts: Cognitive Dimensions, Brooke, Osler, van der Meer

New Age is essentially Pelagian in its understanding of about human nature. Modern evolutionary psychology, however, is possible only because of advances in evolutionary theory in the 20th century. This awakening is the reason for the existence of each individual life.
