**The Medieval Origins of the Legal Profession: Canonists, Civilians, and Courts, Brundage**

In the course of his career, he has been awarded a Fulbright Scholarship, a Guggenheim Fellowship, and an Alexander von Humboldt Research Prize. All these topics, many of which are quite controversial, are handled with a deftness and clarity that provokes admiration and, for those of us who have tried to write about the same things, a tinge of envy. Professor Brundage's style is readily accessible, even to non-specialists.
