The foregoing example illustrates the continuous, recycle embodiment of the invention and demonstrates the detrimental effect of high tar levels in the reaction mass.

Major industrial polymers

Copper-Catalyzed Aerobic Oxygenation of Benzylpyridine N -Oxides and Subsequent Post-Functionalization. Sulfuric acid hydrolysis of the nitrile group and subsequent esterification with methanol gives the methyl ester of α -phenyl- α - 2-pyridylacetic acid 8. Data from 97 of 147 subjects could be statistically evaluated.

Synthesis of poly(amide

Synthesis of poly(dihalophenylene oxide)s by solid state thermal decomposition of bis(4

The pyrolysis of the trisazide py3In N3 3 5 was studied by TGA and DSC showing three distinct steps between 100 and 250°C according to loss of pyridine.
