### Team Contacts

From a genealogical perspective the yearbook is a rich source of births, deaths and, particularly, marriages. The service is available Monday — Friday, 8. Statistics show a weekly breakdown of new cases by postcode areas — for example the BT42 and BT43 areas which take in the Ballymena district — had 174 and 85 between January 4-10.

### Dietetic services

Referral process In hospital, patients may be referred to the Dietitian by the Doctors, Nursing Staff or other healthcare professional for dietary assessment and advice, depending on their condition and nutritional needs.

### Ballymena hold leaders Crusaders as Coleraine win at Portadown

The Local Studies Department at Ballymena Library also holds microfilm copies of the Ballymena Guardian, Mid-Ulster Mail, the Belfast News Letter and the Irish News. The Department of Health says there have been 1,606 covid-related deaths across Northern Ireland since the pandemic began.

### Newspapers

. For more information and contact details for the Health Improvement Dietitians Adult and Paediatric and Cook It! It also has a substantial local history collection of books and primary sources, including microfilm copies of church records for many parts of the county.

### Big Two and Mid Ulster derbies called off because of Covid

Spectator Group general manager Neil Evans said the company was thrilled to be getting its titles printed again after an eight-week absence. There is also an online index to the Belfast News Letter at. Many newspapers have endeavoured to use the crisis to accelerate a shift in consumption to the digital sphere and to woo readers into the habit of paying for journalism online, while other titles have drastically ramped up home delivery

services.

### **Team Contacts**

But Edinburgh-headquartered JPI, which also owns the News Letter, confirmed it was putting around 60 journalists and 350 staff on paid leave under the government furlough scheme. Physiotherapy Service — Neurology Outpatients The Trust provides specialised physiotherapy to patients who are experiencing neurological problems at the sites below.
