Agroforestry and the World Agroforestry Centre

Gert is a soil scientist and works with the dynamics of carbon, nutrients and water in soil-plant systems in applied agriculture and agroforestry systems. He then gives an overview of how agroforestry is implemented in Tanzania. ICRAF is an equal opportunity employer and we are committed to promoting a diverse workplace.

CIFOR

Our staff are undoubtedly our greatest asset and with our people-first culture, we encourage and support employee engagement and empowerment. Proceedings of an International Workshop. Merged since 2019, CIFOR—ICRAF is uniquely equipped to deliver transformative science.

Research Assistant

The latter consists of the Directorate of Science with thematic focus and regional representation and the Directorate of Innovation and Impact focused on supporting the acceleration of impacts. The strong relationships with our host countries are critical and allow both organizations to continue operating as they have, with the networks they have and with the cooperation and support of important global tropical forestry and agroforestry countries.

The aim is to select beneficiary combinations of species to ensure food security, nutritional balance and economic dynamism. Gender mainstreaming is a process rather than a goal.

ICRAF Internship Program at World Agroforestry (ICRAF), Nairobi

INBAR has over 40 member countries, and offices in China, Ethiopia, Ecuador, India, and Ghana.

World Agroforestry Centre (ICRAF) catalog › Details for: A guide for gender mainstreaming in Agroforestry research and development

In the face of these challenges, we urgently need to better connect equitable prosperity and ecosystem resilience with sustainable landscapes. Through building bridges, creating spaces for dialogue between policymakers, local businesses, civil society organizations and scientists, TBI aims to support the uptake and impact of the cutting-edge research of FTA.
