Superscript Arabic numerals are used for such footnotes. The first draft of the guidelines was created as a result of extensive research by both of these committees.

Shannon N. Westin, M.D., Gynecologic Oncologist

Incidence of symptomatic deep venous thrombosis with epoetin alfa or darbepoetin alfa treatment of anemia in patients with ovarian or primary peritoneal cancer. Gynecologic Oncology and Gynecologic Oncology Reports encourage submission of manuscripts that help understand, address or aim to eliminate health disparities, differences in health status, or access to healthcare based on race, ethnicity, sexual orientation, sex, gender identity or expression, religion, national origin, age, disability, marital status, or social determinants of health. Use of inclusive language Inclusive language acknowledges diversity, conveys respect to all people, is sensitive to differences, and promotes equal opportunities.

Society of Gynecologic Oncology

For all cases of vaginal cancers combined, the relative five-year survival rate is about 50%. In surgical therapy and radiation therapy, the terminology in Japanese and English are presented side-by-side.
