Piero Manzoni. Catalogo generale

He died tragically of a heart attack on February 6, 1963 in his studio. This puts the emphasis on the performance involved in the making of these lines as the art, rather than the tube which is bought and sold.

In soli sei anni di lavoro è morto giovanissimo nel 1963, all'età di trent'anni Manzoni, con la sua smisurata creatività, è riuscito a stravolgere tutte le nozioni consolidate dell'arte, passando da un approccio concettuale che prefigurava in certi lavori il movimento dell'Arte Povera a una rappresentazione corporale soffi d'artista, sculture viventi, merda in scatola, ecc. This magpie-like approach to influence from friends helped solidify several innovative artistic techniques such as the use of a pure field of color in paintings as characteristic of the period.
